

Research Products and Services -

The Research Engine

Toolkit title	The Research Engine
Brief description	Service. Two comprehensive databases capturing regular Cogent data from national data sources. Production of standard and bespoke charts and trends on Industry LMI and Education and Qualifications demographics. Comparison analysis against national and international industry data.
What problem does this address?	Need for evidence base for Cogent sectors with splicing of data in bespoke manner for stakeholders and Cogent.
Target audience/anticipated user/s	Members, stakeholders and internal users. Evidence base for SQS SSA and NSA activities.
Availability or date for completion	January 2008. Standard reports and charts to be migrated to extranet or website as appropriate as membership or stakeholder service.
Payment system or cost recovery process	Core for set up. Aspects of reporting may be part of a membership service.
Where can we access existing information or documents, and any artwork or photos?	"Research" page from Cogent website: www.cogent-ssc.com
Preferred contact details for this product/service/team	research@cogent-ssc.com
